- If after the 3-end tie-breaker the scores are level, more tie-breaker ends will be played until a winner is found.
- During Knockout play there must be no further play in a set or in a tie-breaker, if at any point it becomes impossible for one player to draw or win the set given the number of ends left.

3.3 Schedule of Play

4. GAME FORMAT

- The Controlling Body reserves the right to amend the number of trial ends played in the case of unforeseen circumstances (as per Law 5.1.2).

4.2 Re-spotting the jack

- If a jack in motion passes completely outside the boundaries of the rink of play, comes to rest in any hollow in the face of the bank, or rebounds to less than 20 metres from the mat line, the end should not be declared dead. Instead, the jack should be placed with the nearest point of the jack to the mat line at a spot on the rink which is two metres from the front ditch and on the centre line, and play must continue.
- If the spot is partly covered or completely covered by a bowl, the jack must be placed as close as possible to the covered spot, between and in line with that spot and the corresponding spot at the opposite end of the rink, without touching a bowl.

4.3 Sets Play – First to Play

- First set: the opponents must toss a coin and the winner of the toss has the option to either place the mat and then deliver the jack and the first bowl or tell the opposing player to place the mat and deliver the jack and the first bowl (the opposing player cannot refuse).
- Second set: the winner of the previous set must place the mat and then deliver the jack and the first bowl. If a set is a draw, the winner of the last scoring end in that set must place the mat and then deliver the jack and the first bowl.
- Tie-breaker: In the first end (fourth and any further ends of a tie-breaker) the opponents should toss a coin and the winner of the toss has the options as described above (see first set).
- In all ends after the first in each set (including the tie-breaker), the winner of the previous scoring end must place the mat and then deliver the jack and the first bowl. If however, the first end of the first set or the first end of a tie-breaker is a tied end, the first to play in that end must also play first in the second end of the first set or the second end of the tie-breaker.

4.4 Leaving the Rink of Play

- If a player wishes to leave the rink of play, Law 32.1 will apply. However, if on more than one occasion, then on each occasion after the first they can do so only with their opponent's and the umpire's permission.
- The Umpires' permission will be granted in consultation with the player's coach when they are present.

4.5 Restricting the Movement of Players

- Players may only visit the head after delivery of their third and fourth bowls.
- In exceptional and limited circumstances, a singles player can ask the marker for permission to walk up to the head, earlier than described above. If a player does not meet the terms of this law, Law 13 (*Laws of the Sport of Bowls*) will apply.

4.6 Delaying Play

- If the umpire, either by their own observation or on appeal from one of the players, decides that a player is deliberately delaying the delivery of their opponent's bowl:
- On the first occasion, the umpire will warn the offending player.
- If the offending player commits the same offence a second time the end will be regarded as complete, and the opponent of the offender will score as many shots as there are bowls in use by such opponent.
- If the player offends a third time the game will be forfeited to the opponent.

- If the Controlling Body, by their own observation or advice from an umpire or opposition player/coach, decides that a player/coach through their constant interaction during the game is delaying the game unnecessarily, the Controlling Body reserves the right to remove the coach from coaching any further games in the event.

4.7 Scorecards

- Final scorecards must be checked and signed by the players, and the umpire in charge of that match prior to submission to the tournament office.

- When lightning is sighted by the Controlling Body (i.e. Tournament Director) or ITO's, the Controlling Body will use the flash to bang ratio to assess the situation. That is, count the number of seconds between the flash of lightning and the sound of thunder and then divide by 5 and you will get the distance to the lightning.
- Once lightning is within the 30secs/6 kms (approx.) timeframe/radius, the Controlling Body will suspend all play and all players and officials will be required to leave the green immediately and move to a safe structure.
- A break in play due to lightning, requires a minimum of 30 mins off the green after the last flash of lightning is observed.
- When the Controlling Body deems it safe to return to the green, play should resume as per Law 33.
